

Waldo County Technical Center/Region #7
EMERGENCY EVACUATION DRILLS

In order to protect the safety of students and school personnel and in compliance with Maine Department of Education regulations, schools at all levels K-12 are required to hold two emergency evacuation drills during the first two weeks of school. Schools enrolling grades K-4 will hold an additional eight emergency evacuation drills during the year; schools enrolling grades 5-8 an additional six emergency evacuation drills; and schools enrolling grades 9-12 an additional four emergency evacuation drills. Schools enrolling any combinations of these grade levels will hold the additional number of emergency evacuation drills required of the lowest grade level within the span, except that the local fire chief may increase the number of drills required. Results shall be recorded and deficiencies noted and corrected.

Emergency evacuation procedures will be incorporated into the school unit's emergency management plan. The Director may seek the advice of local fire, emergency management and law enforcement officials to identify routes that will accomplish the evacuation of their individual school buildings as quickly and efficiently as possible.

The Director shall keep a record of all emergency evacuation drills held in their schools, stating the date and time the drill was held and the time required for evacuation of the building. This information will be reported to the School Board or his/her designee after each drill. Fire officials will be notified before each drill.

Written procedures for emergency evacuation drills shall be posted in each classroom and in the Director's office.

The Director/designee will be responsible for ensuring that school personnel receive an annual orientation concerning emergency evacuation procedures. The Director will be responsible for ensuring that teachers familiarize students with designated evacuation routes prior to the first emergency evacuation drill of the school year.

LOCKDOWN DRILLS

Some high-risk situations may result in a lockdown of the school rather than an evacuation. Each school will hold at least one lockdown drill during the school year. A lockdown drill should be held during the first two weeks to familiarize students with the procedure.

Written procedures for emergency evacuation drills shall be posted in each classroom and in the Director's office.
