When a student elects to attend WCTC from Searsport, the following guidelines apply.

- Sophomores will attend the Tech Center only with recommendation from the SAT or Special Education **and** approval of the principal. Sophomores will also interview with and be recommended by WCTC instructor in order to attend.
- Students can earn a maximum of 2 integrated core experiences through WCTC's technical programs. They cannot be the same core (i.e. math and science not science and science.)
- Students need to apply through the guidance office to take an integrated core. Otherwise programs at WCTC are considered elective experiences only.
